

LUKA TRAILOVIC

SOFTWARE DEVELOPER | REACT · TYPESCRIPT · JAVASCRIPT · NODE.JS

Oslo, Norway · +47 92 95 97 99 · trailovicluka@outlook.com · trailovic.dev

PROFESSIONAL SUMMARY

Software Developer and lifelong tech enthusiast with experience building modern web applications, internal business systems, ecommerce platforms, and customer-facing products using React, TypeScript, JavaScript, and Node.js. Curious about how technology works beneath the surface, with a focus on clean, readable, and maintainable code and persistent problem-solving. Comfortable working independently and collaboratively, actively seeking feedback and opportunities to learn from experienced developers.

CORE COMPETENCIES

Frontend	React · TypeScript · JavaScript · Next.js · Svelte · Tailwind CSS · JSON · i18n · Responsive Design · UI/UX Development
Backend & Data	Node.js · Express.js · MongoDB · Supabase · Firebase · API Integration
Development & Collaboration	Git · GitHub · GitLab · ESLint · Pull Requests · Code Review · Issue Tracking
Platforms, Deployment & Systems	Vercel · Netlify · Shopify · Linux
Professional	Problem-Solving · Clean & Maintainable Code · Independent Work · Team Collaboration · Continuous Learning

DEVELOPMENT EXPERIENCE

Software Developer - MEPS Translation Platform

Volunteer | 2025-2026

- Developed internal translation and audio-production tools using **Svelte and TypeScript** within a collaborative codebase.
- Integrated APIs supporting **AI-powered voice and audio-processing functionality** for translation-production workflows.
- Worked under strict **ESLint** and code-quality standards, emphasizing readable and maintainable code.
- Collaborated through **GitLab** using tickets, issues, pull requests, and peer code reviews.

Freelance / Independent Software Developer

Norway | 2024-Present

- Returned to active software development after relocating to Norway, refreshing existing skills and researching modern web technologies, APIs, Svelte, and emerging AI tooling.
- Built and deployed personal and commercial projects using modern frontend and full-stack technologies.
- Developed an IT Support Technician portfolio, a multilingual import-company landing page, and a natural-cosmetics ecommerce storefront.
- Expanded practical experience with full-stack development, ecommerce systems, localization, APIs, and SaaS-oriented architecture.

Relocation to Norway

September 2023 - August 2024

- Relocated from Serbia to Norway and worked in temporary, non-technical positions while establishing residence before returning to active software development.

Freelance Web Developer

Serbia | Remote | January 2023 - September 2023

- Designed, developed, and maintained websites for local businesses.
- Worked directly with clients to gather requirements and translate them into tailored technical solutions.
- Managed projects independently from planning through development, deployment, and ongoing support.

DEVELOPMENT EXPERIENCE - CONTINUED

Full-Stack Developer - DGold

Novi Sad, Serbia | Remote | September 2021 - January 2023

- Modernized legacy PHP, Bootstrap, and JavaScript systems by migrating interfaces to **React and Tailwind CSS**.
- Improved usability, responsiveness, performance, and maintainability of internal and customer-facing applications.
- Developed internal analytics, reporting, rewards, and administration systems.
- Contributed to proprietary video-conferencing, dashboard, gaming, and streaming products with SaaS ambitions.

SELECTED PROJECTS

IT Support Technician Portfolio

React · TypeScript · Tailwind CSS · Vercel - Built and deployed a production portfolio demonstrating IT support competencies and responsive frontend development.

Import Company Landing Page

React · TypeScript · Tailwind CSS · JSON · i18n - Developed a responsive commercial landing page with multilingual support and application-wide localization.

Natural Cosmetics Ecommerce Store

React · Shopify · Tailwind CSS - Developed an ecommerce storefront combining a modern React interface with Shopify commerce functionality.

Additional proprietary and client work can be discussed where confidentiality permits.

ADDITIONAL VOLUNTEER EXPERIENCE

Legal Research & Translation - Human Rights NGO

Serbia | 2018-2025

- Translated material from **English to Serbian** over a seven-year period.
- Conducted legal research in 2019 relating to human rights, including freedom of speech and expression of religion.
- Worked with detailed source material requiring accuracy, research, careful interpretation, and clear written communication.
